Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Double Patenting

Claims 3 and 12-17 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-3 and 10 of U.S. Patent No. 6,378,525. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of 6,378,525 are narrower than the claims of the present invention. Even though this application is a divisional of 6,378,525, it still includes the prior patented species (prostate treatment) and the same generic subject matter (method of reducing tissue).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 8, and 11-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Allen, Jr. (3,901,241). Allen, Jr. discloses the treatment of tonsillar enlargement, prostate enlargement and nasal obstruction (col. 6, line 67- col. 7, line 28) comprising freezing and warming the respective tissues with the same cryoprobe (col. 6, lines 1-28).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-10, 13-14 and 16-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Edwards et al. (5,514,131) in view of Allen, Jr. (3,901,241). Edwards et al. discloses the treatment of snoring, tonsillar enlargement, and Obstructive Sleep Apnea however Edwards et al. fails to disclose the use of a cryoprobe and heat. Allen, Jr. teaches a tissue ablation method freezing and warming the respective tissues with the same cryoprobe (col. 6, lines 1-28). It would have been obvious to one of ordinary skill in the art to combine the teaching of a tissue ablation method freezing and warming with the same cryoprobe, as taught by Allen, Jr., to a treatment as per Edwards et al., the motivation to combine being that the Allen, Jr. cryosurgical system has improved temperature control in the instrument and uses very simple, inexpensive and disposable equipment (col. 2, lines 15-19).
